ALL-COUNTY INFORMATION NOTICE I-28-82

TO: ALL COUNTY WELFARE DIRECTORS

SUBJECT: CALIFORNIA'S AFDC QUALITY CONTROL - CORRECTIVE ACTION REPORT FOR  
OCTOBER 1980 - MARCH 1981

REFERENCE:

Attached is a copy of California's report to the Department of Health and Human Services on AFDC Quality Control - Corrective Action for the October 1980-March 1981 period. The report contains California's AFDC error findings and corrective action activities at both the state and county level.

The period covered in this report is the first of the two review periods contained in the first annual assessment period (October 1980-September 1981) under the Michel Amendment regulations. Because of California's low base period error rate, we, unlike most other states, must achieve a 4.0 percent standard in this first assessment period to ensure that no federal sanctions will be imposed.

The statewide error rate of 3.9 percent for the October 1980-March 1981 period continues the downward trend since 1979. I am encouraged by the renewed state and county commitment to error reduction and the resulting improvement.

Sincerely,

MARION J. WOODS  
Director
